

# Explore a Career in Engineering

Join us for  
**Engineering Our Future – Virtual Edition**  
Presented by National Grid in partnership  
with Junior Achievement

**April 29, 2022**  
**10 a.m. - 12 p.m.**

National Grid provides natural gas and electricity to more than 20 million customers in the Northeast. We are dedicated to finding cleaner, smarter energy solutions for the future and need the next generation of engineers to help us get there.

Join us on a virtual tour of our Northport Power Station and hear from a panel of our engineers who will share their experiences. You'll learn what you can do to prepare for an exciting career in engineering.
